Work Experience

Summer Technology Intern,
Harborfields High School, Greenlawn, NY July 2023-August 2023

- Disassemble and reassemble PCs throughout the school district in support of the custodial / facilities staff as they maintain each classroom/office.
- Reorganize the MDF (Main Distribution Framework) to make space for an upcoming project to rewire the MDF.
- Take inventory of Chromebooks (incoming & outgoing) to account for stock and to distribute to students for the upcoming school year.
- Take inventory of PCs throughout the school district to confirm and generate maps of the Harborfields CSD network topology.
- Building out desktop computers to deploy to staff to replace their existing machines.
- Smartboard installation and testing on all workstations reassembled for classrooms prior to the following school year.

Activities

PC Hardware Project

Built and assembled a desktop computer as part of a college course, gaining hands-on experience with PC components and computer hardware.

Personal Website Projects

Created personal websites using HTML and CSS with Visual Studio Code.
